To Whom It May Concern,

The International Union of Elevator Constructors, being the most highly skilled trade in the world, is proud to support and endorse Senator Roger Manno for the 6<sup>th</sup> U.S. Congressional District in Maryland.

Senator Roger Manno has been a staunch supporter of his constituents and an incredible advocate for working people. He has created opportunities for all workers including building trades members by pushing for SMART projects, that include infrastructure, multiple types of power generating projects, entertainment venues, etc. He resists projects that might be bad for communities and/or haven't been vetted properly.

On these projects, both as a State Delegate and as a State Senator, Manno stipulates licensed qualified contractors that employ the most highly skilled journeymen along with apprentices that are properly trained and in an accredited government approved apprenticeship program.

In turn, this produces projects that are built right the first time, on time and on budget, which saves money in the long run for everyone.

Senator Roger Manno supports good contractors that operate properly and do things legally that classify their workers properly.

Senator Manno is a man of deep integrity, his commitment and a never-ending work ethic is unapparelled. His ability to work across party lines gives him the power to get things done. He understands how to move the economy in the right direction and keep people employed and these are just some of the reasons why we, as the IUEC, are incredibly proud to endorse Senator Manno for Maryland's 6<sup>th</sup> US Congressional District.

Sincerely,

Frank J. Christensen  
General President
